## **What is Vision?**

A vision is the long-term dream or ultimate goal of an individual, organization, or company. It answers the question: "Where do we want to be in the future?". It is inspirational, future-focused, and sets the direction.

## **What is Mission?**

A mission is the purpose or reason for existence. It answers the question: "Why do we exist and what do we do?". It is practical, present-focused, and guides day-to-day activities.

## **Vision of Agaram Technologies:**

To lead globally in laboratory informatics and automation by delivering software that makes laboratories compliance-ready, efficient, and paperless.

## **Mission of Agaram Technologies:**

To design, develop, implement, and support user-friendly, enterprise-grade informatics solutions that ensure data integrity, regulatory compliance, and superior customer value for laboratories in science, healthcare, biotech, manufacturing and related fields.
